

Single pole signs: 6' logos

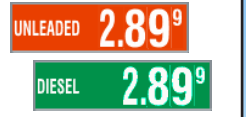

LED gas pricers

Standard models feature red digits, but green digits are available. Available products: unleaded, super unleaded, premium, super premium, diesel and E-85.

Manual gas faces

Manual gas pricers automatically include labels for unleaded, super unleaded, unleaded plus and premium unleaded blends. Additional faces can be ordered if needed.

Panels and faces

Use these panels and faces in blank spaces in your Cenex pylon sign to advertise other offerings at your Cenex station, such as ATMs, car washes, and the availability of diesel and Ampride fuels.

Other components

Even if your main Cenex logo sign and the main cabinet are filled with manual or LED gas pricers, other options are available for advertising and messages. Manual reader boards or digital message boards can be added, as well as small cabinets to advertise the availability of diesel fuels, car washes, or Pay at the Pump services.
